OKLAHOMA STATE TREASURER

MONTHLY INVESTMENT
PERFORMANCE REPORT

JULY 2010

SCOTT MEACHAM
OKLAHOMA STATE TREASURER

October 13, 2010

To the People of Oklahoma:

I am pleased to issue the July monthly investment performance report for the Office of the State Treasurer. I trust you will find it thorough and in keeping with my commitment to provide full and complete disclosure of all activities within my office. As always, my staff and I are available to answer any questions you might have.

Market Conditions

U.S. Treasury yields fell for a fourth consecutive month. The U.S. Treasury two-year note fell eight basis points in July, ending the month at .55%. The 10-year note fell 26 basis points in July to 2.91%. Foreign net purchases of U.S. Treasury notes and bonds were \$14.9 billion in May. In April, the inflow was \$76.4 billion. As recently as March, the inflow was \$108.8 billion. Foreigners were net buyers of Agency debt in May, purchasing \$27.4 billion. In April, foreign purchases were \$14.3 billion. The Dow Jones Industrial Average (DJIA) added 691 points to the index for July, closing at 10,465. The S&P 500 finished the month just above the key 1100 level and gained 6.9% in July. Federal Reserve Chairman Ben Bernanke testified before the Senate Banking Committee in July. The Chairman continued to reiterate the Fed's stance for maintaining low interest rates "for an extended period" and that planning for an exit strategy continues. Bernanke said that the U.S. banking system has improved significantly since the worst of the crisis, but "financial conditions-though much improved since the depth of the financial crisis-have become less supportive of economic growth in recent months."

Economic Developments

The Institute for Supply Management reported that its index of manufacturing activity dropped to 56.2 in June from 59.7 in May. This is the lowest level for the index since December 2009. The unemployment rate fell to 9.5% in June from 9.7% in May. June average hourly earnings slipped 0.1% and May was revised down to 0.2% from 0.3%. The average workweek slipped 0.1% of an hour to 34.1 hours from 34.2. The June producer price index (PPI) for finished goods fell 0.5% after falling 0.3% in May. Retail sales in June declined 0.5% after falling 1.1% in May. The June consumer price index (CPI) fell .01% in June following a 0.2% decline in May. Compared to a year ago, consumer prices in June were just 1.1% higher. The U.S. trade deficit unexpectedly widened in May to \$43.3 billion, the highest level since November 2008 as a gain in imports outpaced growth in exports. Single-family housing starts in June fell by 0.7%, to a seasonally adjusted annual rate of 454,000. Permits for single-family starts fell 3% in June, following big declines in both May and April. The National Association of Realtors reported existing home sales plunged 5.1% in June to an annual pace of 5.37 million. The inventory of homes for sale rose 2.5% to 3.99 million units and now it would take 8.9 months to clear the current supply. New home sales rose 23.6% in June. The Conference Board's consumer confidence index for July slipped to 50.4 from 54.3 the prior month. This is a five month low. Gross domestic product (GDP) slipped to an annual growth rate of 2.4%.

Portfolio Commentary: Performance, Diversification, and Strategy

Yield on the Treasurer's portfolio was 3.04% in July and the weighted average maturity was 617 days. There were no significant changes in asset weightings. The year-to-date monthly average investable base decreased \$297 million to \$3.049 billion. Portfolio diversification continues to be sound. U.S. Treasuries represented 1% of holdings, and U.S. government sponsored enterprises accounted for approximately 35%. Mortgage-backed securities were 33%, municipal bonds were 2% and certificates of deposit represented 5% of assets. Money market mutual funds were 8% and 12% was maintained in overnight repurchase agreements. Link deposits (at less than 1%), state bond issues (at 3%) and foreign bonds (at less than 1%) made up the balance of funds invested. In keeping with the State's statutory investment objectives, the portfolio strategy continues to seek safety, liquidity, and return on investment, in that order. Based on market conditions, portfolio strategy will consist of a combination of laddered maturities and market observation for investment opportunities.

Collateralization

All funds under the control of this office requiring collateralization were secured at rates ranging from 102% to 110%, depending on the type of investment.

Payments, Fees, and Commissions

All securities were purchased or sold on a net basis utilizing competitive bidding where practicable, with no additional fees or commissions known to the State Treasurer. Bank fees, mutual fund operating expenses and fees charged by JPMorgan Chase for the Tri-Party Repurchase Agreement Program are detailed in the attached pages, as is the earnings split between the Treasurer and the master custodian bank on securities lending income.

Total Funds Invested

Funds available for investment, at cost basis, include the State Treasurer's investments at \$3,105,133,055 and State Agency balances in OK Invest at \$1,904,779,369 for a total of \$5,009,912,424.

Sincerely,

SCOTT MEACHAM, STATE TREASURER

Explanation of Performance Comparison July 31, 2010

The following page presents market rates of return on the Securities portion of the General Account and of the State's aggregated State Agency Accounts. The figures, which are dollar- and time-weighted, where appropriate, are calculated using the percentage change in market value (inclusive of accrued income) from the end of the prior month to the end of the reporting month. To ensure the integrity of the data, this information is provided by the Treasurer's custodian bank acting in its capacity as an external third party. As such, performance measurement is presently confined to those investments which are custodied at Northern Trust ("Northern").

The Treasurer's office is trying to develop a method to report rates of return on all investment instruments in the State's portfolio. This is in an effort to report return data in a manner recommended on September 15, 1994, by the Working Group of the Cash Management and Investment Oversight Commission. However, there are technical and conceptual challenges to expanding performance measurement to other portions of the portfolio. Attempting to apply market-base pricing calculations to instruments which do not trade, such as Certificates of Deposit, presents difficulty which is both conceptual and technical in nature.

Benchmark data is also provided on the following page.
